

## AIREXE.io EXCHANGE BRIEF

Cryptocurrency market is booming and it became obvious that there is a need for a new generation of Cryptocurrency Exchanges. New exchanges have to be clean from the start, to follow regulation rules and KYC/AML/CTF procedures.

It's expected that many existing Exchanges will be shut down due to their uncertain and non-transparent origin. They won't be able to build positive and long-term working relations with governmental authorities, regulators and financial institutions.

AIREXE is new modern crypto-fiat currency exchange. AIREXE focused on ensuring the increased security of clients' funds, providing live responsive customer support, high availability and accessibility. AIREXE will strictly follow and comply to government regulations, licensing requirements, taxation and will operate completely legally. Our target is to be most convenient exchange for the beginners and for professional traders by providing both functionalities - professional with all the features available, and simplified, for those who is novice in cryptocurrency and trading.

There are number of problems/issues with existing exchanges, which we, at **AIREXE** exchange, will rectify and solve.

### The Problems

- ◆ Security of customers' funds at exchanges
- ◆ Lack or weak cooperation with government regulators
- ◆ Terrible or weak customer support
- ◆ Long waiting period for new coins and tokens to get support
- ◆ Lack of simplicity
- ◆ Teams and ownerships are not transparent
- ◆ Lack of mobility

### Solution by AIREXE

- 1) **The highest security measures** - the latest technologies in authentication and biometrics for mobile users
- 2) **Cooperation with regulators and governments.** Following regulations. Licensing. Taxation.
- 3) **Responsive Customer Support** - 24/7 live customer support, with timely response
- 4) **Fast start and tutorials for newbies traders**
- 5) **Transparency of the project's ownership**
- 6) **Attention to mobile users** - a truly device-neutral exchange with native App
- 7) **Integration with new blockchains** (as example - integration with **TON**, Telegram Open Network)
- 8) **Rating agency and analytics** (providing cryptocurrency professional analytics and ratings for projects, tokens and cryptocurrencies)
